

Wire Harness Contract Manufacturing

Improve Product Reliability & Reduce Costs

For a wide range of cost-effective, custom cable assembly and wire harness solution, Pro-Data Group is the best choice for today's manufacturing needs. We draw on our knowledge of materials, tooling and processes to ensure our customers receive a high quality harness at a competitive cost.

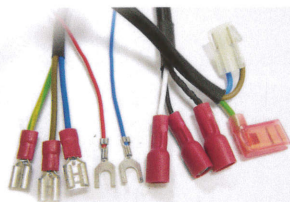

Pro-Data has experience manufacturing wire harness and cable assemblies for many different markets and industries. These industries include Agriculture, Medical equipment, Communication, Automation, Gaming Machine, Security, Electronic Cabinet, Aerospace, Shipping/Yacht, Embedded Electronic System, Internal Cabinet Harness, Industrial Equipment, Transportation and many others.

Design. Engineering. Prototype. Mass-Production. Customer Support

We offer wire harness & cable assemblies with all kinds of branded connectors like JST, Molex, Tyco, JAE, Hirose, Amphenol, Elco, FCI, Phoenix, Harting, 3M, Stocko, Souriau, Weidmuller, etc. Many different types of connectors and components are also available in Pro-Data like crimp connector, solder connector, IDC connector, switch, buzzer, speaker, sensor, resistor, capacitor, terminal block, power inlet, potentiometer, LED, ferrite core, fuse and coil. According to different applications, we provide our clients with PVC, Silicon, Teflon or PUR wire & cable from the size 32AWG to 4AWG.

The benefits that a partnership with us will bring to you and your organization are significant. Service is integrated, Lead times are minimized, Work in Process is kept to a minimum, and you'll have the wire harness and cable assemblies you need built correctly and delivered on time every time.

Custom Wire and Cable Customer Support include:

- Cutting
- Stripping
- Stranding
- Tinning
- Twisting
- Crimping
- Soldering
- Injection Molding
- Insert into Housing
- Heat Shrinking
- Terminating
- Labeling/ marking
- Non-Shrinkable Plastic Tubing Sleeve
- Spiral Wrapping
- Cable Tie
